PROJECTS

GENWEAR — Full Stack Fashion E-Commerce Platform

- Built a complete fashion e-commerce solution using MERN stack with 50+ features — product browsing, wishlist, cart, secure checkout and order tracking.
- Developed a full Admin Dashboard with product management, customer control and order processing capabilities.
- Implemented JWT authentication, role-based access control and data protection for production-grade security.
- Designed mobile-first responsive UI with React 18, Redux Toolkit and Tailwind CSS; deployed live on Vercel.

Stack: React 18 · Redux Toolkit · Node.js · Express.js · MongoDB · Tailwind CSS · JWT · Vercel

To-Do List — Full Stack CRUD App

- Built a complete task management web app with Create, Read, Update, Delete operations using MERN stack.
- Used React Hooks for state management; built RESTful API with Express.js and persisted data in MongoDB.
- Designed a fully responsive, mobile-friendly UI for seamless experience across all devices.

Stack: React.js · Node.js · Express.js · MongoDB · JavaScript · CSS

Amazon Clone — Frontend E-Commerce

- Crafted a pixel-perfect front-end clone of Amazon with product cards, navigation bar, and cart section.
- Applied modern responsive design ensuring consistent layout and usability across all screen sizes.

Stack: HTML5 · CSS3 · JavaScript

Real-Time Weather App

- Integrated OpenWeatherMap API to display live weather — temperature, humidity, wind speed by city.
- Implemented dynamic icons and conditional UI rendering based on real-time weather conditions.

Stack: HTML5 · CSS3 · JavaScript · OpenWeatherMap API

Mini E-Commerce Website

- Developed product browsing, filtering, and cart management features with React component architecture.
- Designed a clean, responsive storefront UI focused on user experience and conversion.

Stack: React.js · Node.js · Express.js · MongoDB · JavaScript · CSS
